

information data sheets

Via the work of its Technical Commission the ICDLI solves technical questions, works out the outstanding features of decorative laminates and provides valuable information to the manufacturers and processors of decorative laminates. Here you find the information data sheets the Technical Commission has published until now:

 [2011 12 General recommendations for working with Decorative Laminates \(HPL\)](#)

 [2009 11 Fire behavior of decorate High Pressure Laminates \(HPL\)](#)

 [2009 11 Electrical properties of High Pressure Laminates \(HPL\)](#)

 [2008 11 Glueing table – Intro](#)

 [2008 05 Productdatasheet for HPL Elements](#)

 [2008 05 productdatasheet for Decorative High Pressure Laminates](#)

 [2008 02 ICDLI Chemical Resistance of HPL](#)

 [2008 02 Cleaning HPL](#)

 [2007 04 Characteristics and Possibilities of Use for HPL](#)

 [2007 02 Guide to CE Marking](#)

 [1991 06 Formed Compact Elements](#)

 [1990 02 Working with laminates with metal base materials](#)

 [1989 07 Working HPL with mineral base materials](#)

 [1989 03 HPL in bathrooms](#)

 [1988 12 Recommendation for working Duroplast-based edging materials](#)

 [1988 03 Working with postformable HPL](#)

 [1987 07 Worktops with HPL surfaces](#)

 [1980 08 Using HPL in damp and wet rooms](#)
