RESOPAL® conceptBOARD

The new design concept for stylish kitchens

The worktop and back panel create a single streamlined design element, which is a stunning focal point – this is the new RESOPAL® design concept for kitchens. The structure of the worktop is continued through into the **conceptBOARD**, creating a complementary background behind the worktop as well as achieving a sense of continuity and flow.

- **Six expressive and authentic motifs combined together with 8 stone or wood finishes**
- **Seamless design over a total width of 4100 mm**
- **Direct Digital UV print on particleboard**
- **Digital print on one side, surface finished in UV lacquer (VOC content less than 1%)**
- **Unique back panel in a matt finish**
- **Resistant to scratching, abrasion and chemicals, colour stable and food safe to DIN 68861**
- **Precision joints which achieves an overall consistency of look to the product**
- **Worktop in same finish available from stock**

*(on the following pages you will see the worktop finish in combination with the six motifs as a **conceptBoard**)*

Substrate

Edge particleboard P2 E1 and on ready-made panels with a PU-glued black ABS edge to make the unit waterproof.

Ready-made format

Width: e. g. 600/1.200/1.800/2.400/3.000/3.050/3.600/4.100 mm
Height: e. g. 550/560/575/584 mm
Thickness: 15,4 mm

Strand products without an edge

Width : 3.050/4.100 mm
Height : 1.240 mm (dual use of motif of 600 mm)
oder 620 mm (single use of motif of 600 mm)
Thickness : 15,4 mm

Process

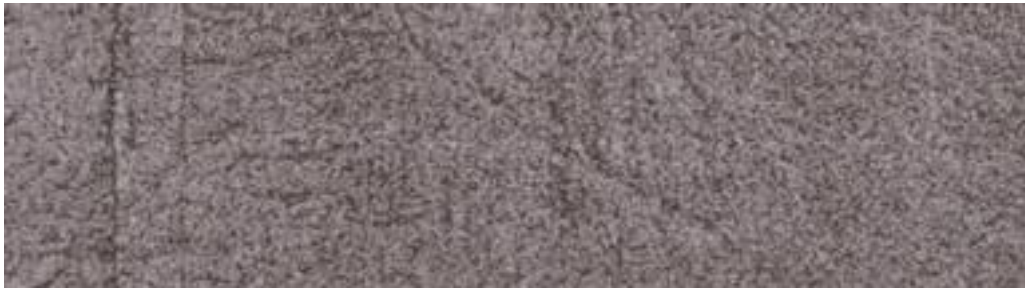

Using conventional wood-processing machines.

Finishing

Sealing any edges is required when re-cutting.

Assembly

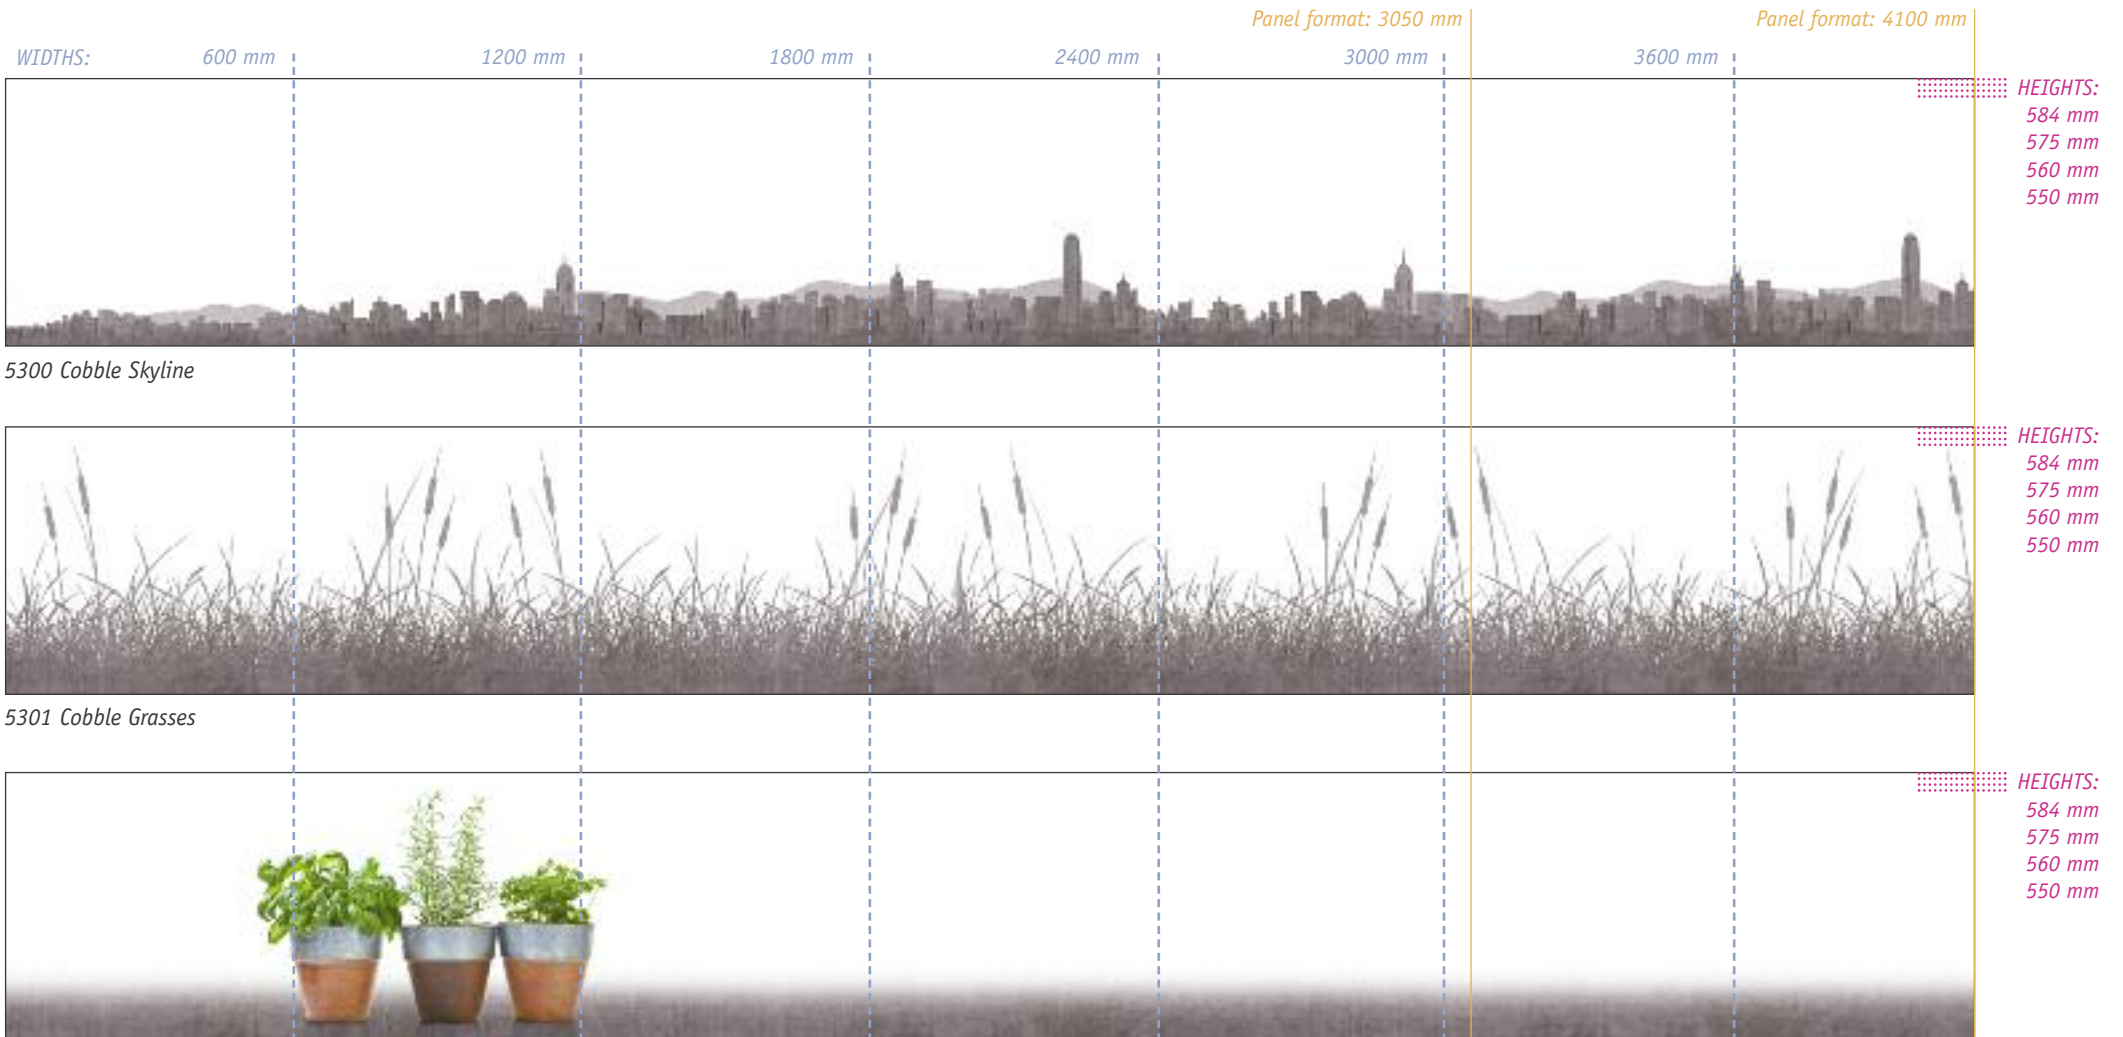

By gluing using a single-component sealing compound or double-sided adhesive tape.
